

**Position:** Research Analyst - Global Equities (Utilities, Renewables & Climate Change)  
**Location:** Los Angeles, CA

**Company**

**Overview:** Causeway Capital Management LLC provides equity investment management services to corporations, pension plans, public retirement plans, sovereign wealth funds, Taft-Hartley pension plans, endowments and foundations, mutual funds, charities, private trusts, wrap fee programs and other institutions. The majority employee-owned firm, based in Los Angeles, began operations in June 2001 and manages international, global, and emerging market equities. Causeway employs a unique blend of fundamental and quantitative investment strategies and offers its clients access to the firm's proprietary risk analytics.

**Position**

**Overview:** The Research Analyst will assist Sr. Research Analysts and Portfolio Managers in conducting in-depth fundamental research for listed companies globally, principally within Utilities, Renewables and Climate Change-related industries. This will include constructing and maintaining comprehensive financial models and projections, composing detailed investment memos, preparing and leading management meetings and examining financial, economic and industry trends in the U.S. and overseas. Researched companies will be candidates for inclusion in Causeway's fundamental international and global value developed markets strategies. The Research Analyst will be assigned at least one Causeway senior investment professional as a mentor to enhance learning about stocks and markets.

**Skills and Abilities:**

- 2 - 4 years of post-undergrad experience in a buy-side research, sell-side research, investment banking or relevant industry role.
- Utilities or renewables-related research or industry experience preferred.
- Undergraduate university degree with excellent academic credentials. The ideal candidate will be a CFA charterholder or have progress towards a CFA designation.
- A strong passion for global equity investing and a respect for disciplined, value-oriented investment strategies.
- Comprehensive understanding of accounting, financial statements and valuation methodologies. Expertise in financial modeling preferred.
- Excellent writing and oral communication skills; ability to articulate findings thoroughly, yet concisely.
- Creativity and intellectual curiosity.
- Demonstrated ability to be a team player while also directing independent work and multi-tasking across multiple projects.
